VAPOR ECHO - INSTALLATION

⚠ Before starting, determine which fasteners will be best suited to secure the fitting, based on the material of the ceiling substrate.

1. Hang shade from ceiling using mounting hardware provided. See next page for additional detail
2. Mount canopy base to ceiling
3. Insert power cable into canopy cover. Adjust lengths of cable and trim if necessary. Fasten power cable strain relief grub screw
4. Connect line voltage to terminals provided
5. Place canopy over canopy mount and fasten 2x grub screws

NOTE: Line voltage fittings must be installed by a qualified electrician, in accordance with local electrical laws
