Rune Outdoor GRC brings all the benefits of the Rune Lounge to the outdoor environment whilst the sturdy Glass Fibre Reinforced Concrete (GRC) form ensures perfect, modular seating in any public space. Seemingly chaotic and undecipherable at first, the angular shapes evoke a language of their own, speaking volumes about flexible arrangements and endless tessellation for customising spaces. Choose from standard polished concrete, sandblasted finishes to reveal the aggregate or a huge range of coloured concretes or painted finishes.

KEY FEATURES

- Made from glass fibre reinforced concrete
- Suitable for outdoor use
- Available in standard grey, tinted colours or lacquered concrete
- Optional anti graffiti and clear lacquered coating
- Excellent size to weight ratio
- Various custom mounting options, including concealed brackets
